

BIG OIL

The Slippiest Criminal In Town

Like CO₂, Big Oil is out to destroy our planet and Busta Moose!

He was also recruited by Dick Tator for his ability to slip around the law and also spew lies about global warming and oil pollution.

His super powers are many such as contaminating drinking water, shoot oil slicks at our heroes and can turn into a pool of oil to avoid capture.

Big Oil does have two weaknesses, Mary's muffins and Jim's southern preaching of repent and guilt.

Big Oil is the slippiest of all to capture but may be turned into a good humanitarian with the right help from the Moose gang.
